Statement by U.S. Senator Jim Risch on CCI/Speer Layoffs

“It is disappointing to hear that over 100 people are losing their jobs at CCI/Speer in Lewiston. It is imperative that the new Congress and President work quickly on ways to improve our country’s business climate. We must find ways to keep companies like CCI/Speer growing and their workers employed. They are an excellent local employer and we need to move swiftly to keep these jobs that provide the income for many families in the Lewiston area.”
